

Eco Billy Instant Camp Kettle 1.5L

\$99.90

Details

The large Eco Billy heats enough water for a carload of weary travellers who've pulled over for a roadside cuppa, what's even better is that with the Eco Billy Instant Kettle, a handful of twigs and leaves and a match, you' can have hot water in under 5 minutes.

Made from stainless steel, the Eco Billy has a cone-shaped funnel to accommodate a small fire underneath that rapidly heats water in an environmentally friendly manner.

Simply turn the billy upside down, place leaves and twigs into the cone, flip it back upright, fill with the desired amount of water, light the leaves through the holes in the base and in just a few minutes you will have hot water.

Heats water in under 5 minutes
5 cup/4 mug capacity
Fold out handles
Durable stainless steel construction
