

Explore Planet Earth Speedy 4 Pop Up Tent

~~\$349.95~~ **\$129.90**

Details

Get your sleeping quarters set up in seconds with the Explore Planet Earth Speedy 4 Person Tent. The Speedy has been revamped to include an integrated Intents LED lighting system on the inside of the tent, all you do is hook it up to an optional standard USB power bank or USB battery adapter. You'll never have to fumble in the dark again!

To set up you simply take the Speedy Tent out of its carry bag and pop it open. The all-in-one construction means the fly, floor and inner pitch together, so all you need to do is place a few pegs in the ground. This model uses resin poles which are stronger and more malleable than their competition, which means they're as easy to set up as they are to pack away.

The windows can be rolled open on warm nights or zipped closed in adverse weather leaving two vents that still provide plenty of airflow. The Speedy Tent guarantees less time spent setting up camp, and more time taking in the great outdoors.

Compatible with a standard portable USB power bank or USB battery adapter (batteries not included)
Dual skin all in one waterproof construction
Single entry
Side windows
Interior organiser pockets
Includes backpack carry bag, pegs and reflective guy ropes
