

OZtrail  
Vertex 3 Hiking Tent

~~\$419.00~~ **\$299.90**

### Details

If you're the kind of unstoppable outdoors person who loves hitting the trail when most people are rugged up inside with a hot drink and a fuzzy blanket- then you're going to need a suitable tent. The Vertex 3P tent from OZtrail will give you the weather protection and portability that you need to get out on any hiking and backpacking adventure.

The cross-pole design provides extra head height and stability which may seem trivial - but it won't be when the weather turns sour and you're stuck undercover. The polyester inner is dense enough to retain heat and keep out a frosty breeze in colder weather. The Vertex's fly has a high waterproof rating, as well as heat taped seams for extra protection against wind or rain. With enough space for three, you may find that it's too snug for everyone plus their packs. Luckily the Vertex 3P has twin vestibules so any overflow can be stored under shelter if need be.

And with a door on either side of the tent, you can creep out to answer nature's call without having to step over other groggy (and cranky) campers. With enough space for two adults, or a cosy three - the lightweight structure and winter-appropriate inner of the Vertex 3 is a great cold weather hiking option.

- Sleeps 2-3 adults
- Ideal for hiking in colder climates
- Two side vestibules for additional storage
- Two large doors
- Sturdy cross pole frame
- User-friendly design packs away quickly and easily
- Compact Drysac style carry bag included

### Specifications
