

OZtrail  
Tourer 300 Fast Frame Tent

**\$369.90**

### Details

If you like the idea of a touring tent, but you just find you don't get out there as much as you'd like - the Fast Frame range from OZtrail will give you that space and easy setup, but without the strain on your bank balance.

The Fast Frame 300 has a strong steel pole frame with durable non-corrosive plastic hubs and reinforced peg and guy rope points for stability. The inner tent and fly is made from light and durable polyester that protects from UV rays and helps to make this tent completely waterproof. The heat taped seams and PVC coated polyester bucket floor with laminated welded corners will keep you dry in wet and windy weather conditions - so there'll be no damp and disgruntled campers in sight.

Each window has a storm flap that can be shut with Velcro which will keep out wind-driven rain. You'll also get plenty of airflow from the No-See-Um mesh which will prevent any insects from making a surprise appearance inside your tent. To set up simply lay it flat, unfold the knuckles, extend the legs out, add the fly over the top and then set up the awning and you're good to go!

Sleeps 6 Adults  
Mesh and Fabric zippered panels on the D-shaped door  
No-see-um mesh for insect protection  
Side and front walls to enclose front awning are available separately  
Power cord access point, light attachment point, wall organizer pocket, media storage pouch and loft organizer  
Carry bag included for easy pack up
