

Exped Universal Mat Coupler Kit

\$39.95

Details

If your Exped single mattress is looking a bit lonely all by itself, then join it up with another mattress using the Exped Coupler Kit. This kit consists of two loops - one for each mattress, and a vertical band in the middle that keeps the mats level in the middle.

To adjust the coupler to the thickness of the mat - move the middle band, and to accommodate the width of the mat - adjust the outside tabs. For the best results position the straps at the shoulder and hip height to space them out as well as possible.

Exped have made the straps on this kit thin but highly durable - so you won't even notice that you're sleeping on them. These loops are also very versatile, and so they can be used with almost any other single person mats that you already have.

Swiss design
Lightweight and easy to store
Easily accommodates mats of various widths/thickness
Side by side coupling of any single person mats

Specifications

Snowys Code:	136551
Supplier Code:	EP32205650
Packed Dimensions:	19L x 14W x 3H cm
Material:	Polyester
Frame Material:	Powder Coated Steel
Weight:	0.05 Kg
Warranty:	1 Year
