

Zempire Aerobase 3 Shelter + Wall

\$499.99

Details

We all know that you've got to be cruel be kind in the right measure, but Mother Nature may not always agree. Make sure you give yourself a nice sheltered space from the sun and wind to relax under, with the Zempire Aerobase Shelter.

This shelter inflates in mere minutes and will pack away just as quick - just lay it out, put the pump in, add some air, thread the poles through and you're done! Everyone knows that Australian outdoor conditions can get so hot that you can actually fry an egg on the ground, so a shelter like this with SPF50+ protection will give you another layer protection from the harsh summer climate.

The packed Aerobase is almost half the size of your average steel shelter, and you can collapse the shelter by the inflation valve instead of removing the canopy. So, whether you're off to a watch a sporting event, hosting a backyard BBQ or setting up camp - the Aerobase will give you some shade for you to relax under, and wind protection if the weather goes awry.

- Fully seam sealed
- Two-way door zippers
- Freestanding frame design
- Compact packed size
- Pump included
- One side wall included
- Carry bag included
- 4 x sand pegs and 16 regular pegs included
