

Darche Xtender 2 Awning Tent

\$649.95

Details

When you've driven all day and the sun is starting to set, and a frosty breeze is blowing - the last thing on your priority list is to spend ages setting up your shelter for the night.

The Darche Xtender allows you to set your shelter set up right next to your vehicle without the need for any fuss. Just attach the Xtender 2 to your awning or unzip it to leave it there while you go about your adventure. The gusset window at the rear will give you the ventilation you need, while the 1500 mm waterhead rated fabric will protect you from the elements.

The detachable fly will also give you that extra protection that you need if the weather turns sour, or for warmer days leave it off for more airflow inside your tent. The Xtender 2 is the perfect shelter to take fishing, camping, hunting or touring for a fuss-free sleep in the great outdoors.

Best attached to the 2.0m wide Eclipse awning
Can also be used on the 2.5m Eclipse awning
Freestanding when unzipped from awning
Extra removable front awning panel included
Detachable fly
Rear gusset window
Large carry bag included
