

Black Wolf Turbo Lite Cabin 380 Tent

\$1,199.99

Details

If you like the layout of a large cabin tent, but you find them a little too roomy for your liking- then the Turbo Lite Cabin 380 from Black Wolf is the happy medium between space and design. The Turbo range from Black Wolf is a timeless design that's lightweight, well made and easy to use - so it will see you through season after season.

This newly updated range has tape sealed seams where the floor and tent wall meet, and the fly has wider corners to guard against water leakage. In windy conditions, the extra reinforcing along the roof poles and the stronger mesh on the windows and doors will add to the robustness of this tent.

The large awning can be turned into an extended living area with optional panels, or it can be sectioned off with an optional screen room for a fully enclosed space. The added PVC storm flaps at the bottom of the optional front and side panels will help keep your awning dry in wet weather, and the zips and Velcro on the panels attach to the fly to allow for tape sealing for added water protection.

With plenty of headspace, two side by side rooms for extra liveability, and a versatile awning- you can't go past the Turbo Lite Cabin 380 for fuss-free smaller cabin tent.

Huge front awning
Quick pitch frame
Lightweight Polyester construction
Extra fly coverage for improved weather protection
Reinforcing on the inside of the fly for durability
