

OZtrail
12V LED Strip Light 1 Metre
\$29.90

Details

Bring some illumination to your outdoor living space, camp kitchen or even just your backyard with this weather resistant, and easy to set up LED Strip Kit from OZtrail.

This kit was designed with the harsh Australian outback in mind, so you can use it confidently in all kinds of weather. With 60 ultra-white 900 lumen LED's, that can be dimmed - you'll have plenty of low profile light for your set up. It also has a low power draw and heat output, so it's going to give you plenty of juice for your trip and isn't going to overheat easily.

You can join or branch it up with up to 5 metres of lighting, so you can mix and match to come up with the perfect combination for your campsite. Best of all, it's easy to use. All you have to do is attach using the Velcro fasteners so it's also perfect to use around the house, on your vehicle, or even down at the beach.

- Low power consumption
- Join or branch up to 5m of lighting
- Weather resistant screw lock
- Velcro loop attachment straps
- UV stable resin coating
- Cigarette lighter power cord included
- Dimmer on/off switch
- Spool holder for your LED strip
