Details

With a lightweight and sleek design, you'll barely notice the Camelbak Rogue 2.5L Hydration Pack on your back when you're mid-ride.

We didn't think they could fix something that wasn't broken, but Camelbak have managed to improve their reservoir system - making it deliver 20% more water per sip, and easier to fill and use. You fill this reservoir externally, which makes it easy to use when you're itching to get outside in the fresh air for a ride.

There are also compression straps on either side for streamlining your pack, overflow storage if you need to bring a few extra small things with you on your ride. Ideal for short intense outings, the Camelbak Rogue won't let you down.

Designed to carry: Multi-tool, pump, spare tube, phone, wallet, keys
External fill port
Dual compression strap
Overflow storage
Organiser pocket
Reflectivity strips
