

MPOWERD Luci Lux Lantern

\$27.90

Details

It's not often you use the word elegant to describe outdoor gear, but there's really no other word for the Lux Lantern from Luci. This solar powered, collapsible and lightweight lantern will add a diffused glow to your dinner party, campsite, or outdoor event.

He Lux Lantern is powered by the sun, so all you have to do is sit it out in direct sunlight for 7 hours, and it'll be fully charged and ready to go. This little beauty is also waterproof IPX67 so it's not going to fold on you when the weather turns sour. The Lux features four settings - low, medium, high and 1-second flashing, so you'll have plenty of illumination options for whatever you're doing.

Another nifty feature of this lantern is that it will last up to 24 hours on the lowest setting on a single charge - so you'll have plenty of light for your evening soiree. For a warm, candlelit glow without the fire hazard - you can't go past the Lux Lantern from Luci.
