

Trangia 25-7 Large ULHA Aluminium Stove

\$169.90

Details

The Trangia 25-7 cooker combines the robustness of hard anodised cookware, with cost-effective lightweight aluminium windshields for performance and reliability in the field.

Easy to use and set up - the 25-7 comes with two saucepans and a frypan so you aren't limited to rehydrated meals with this system. It also features a pot grip, which provides an effective way to handle this system without burning your hands.

The saucepans and frypan are made from hard anodised aluminium which makes them easier to clean and more resistant to scratching, while the upper and lower windshield is made from lightweight aluminium - meaning you can get that extra durability where you need it while saving some extra dollars for other gear in your kit.

The 25-7 features a two-part windshield for keeping your flame safe from a cold wind, and an easy to light spirit burner with a simmer ring to control and extinguish the flame. Simple, dependable and exceptionally made - the classic design of the Trangia 25-7 stove system is ideal for the lightweight minimalist hiker.

Lightweight aluminium upper and lower windshield
2 x hard anodized saucepans, 1.75 and 1.5L
1 x 22cm hard anodized frypan
Spirit burner with simmer ring control
