

## Darche RTT Anti-Condensation Mat 1400

**\$134.90**

### Available sizes:

Suits 1400 Roof Top Tents | Suits 1600 Roof Top Tents

### Details

When it's really warm or freezing cold, condensation can form under the mattress in your rooftop tent, which is why the RTT Anti-Condensation Mat from Darche is key for preventing that issue in your sleeping set up.

Constructed from woven polypropylene, if you lay this mat between the factory mattress and the alloy base, it will create more air flow and circulation, to help stop condensation underneath.

With sizes available for both 1600 and 1400 sized Darche Roof Top Tents, you can minimise moisture build-up with the RTT Anti-Condensation Mat from Darche.

Made from woven polypropylene  
Two sizes available - 1600 and 1400  
Creates airflow to minimise condensation  
Sits between the factory mattress and the alloy base
