

**MSR  
Guardian Water Purifier****\$545.00****Details**

The Guardian Purifier from MSR is a self-cleaning and enduring water purification system that will cover all your bases on your overseas or isolated expeditions.

The Guardian uses a hollow fibre cartridge, which is effective against viruses, bacteria, protozoa and particulate - so you don't need to use further treatment.

Originally designed to be used for the military, this technology has been honed to make it a simple solution for those exploring remote areas. This unit has an advanced hollow fibre filter, that will reliably treat up to 10,000+ litres of water before it needs a replacement.

This filter will self-clean with every stroke which helps the flow rate to be consistent and eliminates the need to ever backflush or scrub the filter. With a rate of 2.5 litres of water per minute, this system allows you to quickly and efficiently treat water for a larger group of people.

Built to withstand freezing conditions, harsh environments and heavy use - the Guardian is at home on all your rugged adventures where clean drinking water isn't available.

Effective against viruses (99.99%), bacteria (99.9999%), protozoa (99.9%) and particulate.

Pumps 2.5 litres per minute

Eliminates the need for further light or chemical treatment

Self-Cleaning

Hollow fibre cartridge treats up to 10,000+ litres of water

Designed for heavy use, freezing conditions and other harsh environments

**Specifications**

<b>Snowys Code:</b>	139175
<b>Supplier Code:</b>	M165-02370
<b>In Use Dimensions:</b>	21H x 12W x 8D cm
<b>Packed Dimensions:</b>	21H x 12W x 8D cm
<b>Material:</b>	Polyurethane   BPA Free
<b>Filter Size:</b>	0.02 Microns
<b>Filter Life:</b>	10,000 + L
<b>Effective Against:</b>	Protozoa   Bacteria   Viruses
<b>Flow Rate:</b>	2.5 L/min
<b>Weight:</b>	0.49 Kg
<b>Warranty:</b>	3 Year Limited
