### Details

There's nothing like the first sip of coffee on a cold and frosty morning. Why huddle around a cup of instant, when you can have a fresh brew with the Java Press from GSI Outdoors?

The silicone ringed plunger prevents any dirt or other crunchy bits blowing in, while the double walled insulated lid will keep the heat in while your drink is brewing. Your mitts will be protected from the hot beverage and will also insulate the contents as the Java Press has a ballistic cloth covered foam insulated cosy.

The carafe inside is made from BPA free copolyester so it's shatter-resistant, and won't weigh you down. Pep up your mornings and afternoons out in the elements with a fresh coffee or tea, made with the GSI Outdoors Java Press.
