

Nikwax
Tent & Gear Solar Proof

~~\$34.95~~ **\$23.90**

Details

Increase fabric strength, add water repellency and protect against UV deterioration with the Tent & Gear SolarProof from Nikwax.

Tent & Gear SolarProof is any easy to use treatment that waterproofs and block out UV on your synthetic waterproof outdoor gear. Over time with prolonged exposure to sunlight, the synthetic fabric on your tent can lose its strength which means it's more likely to tear or puncture. Once applied, this product can double the life of the fabric, meaning that you get more out of it in the long run.

This product is also water-based, non-flammable, no volatile organic compounds and is fluorocarbon free. Replenish the UV protection and waterproof treatment of your tent or gear to prolong its life with the Tent & Gear SolarProof from Nikwax.

Provides durable water repellency and protects against UV deterioration
For synthetic waterproof fabrics
Water-based, non-flammable, contains no volatile organic compounds and is fluorocarbon free
