

Black Wolf 3D Jumbo 600 Sleeping Bag (-2°C)

From \$89.00

Available colours:

Green

Details

If you're feeling a little frosty in your current sleeping bag, then warm up in the wintry months with the 3D Jumbo 600 Sleeping Bag from Black Wolf.

This sleeping bag is independently tested to the new international standard - ISO23537:2016 for reliability. With a comfort temperature of -2°C, and a lower limit of -9°C the 3D Jumbo will keep you snug on those cold weather camping trips. The outer is made from ripstop nylon, to help prevent against wear and tear in the elements, the inner flannel lining provides soft comfort, and the 10cm side wall gives this bag it's roomy 3D internal volume.

To guard against a chilly breeze, the draft flap will act as a barrier while the contoured hood will keep your noggin covered. The anti-bite zipper guard prevents snags, while the night glow zipper puller makes it easy to find at night without a struggle. If you like to keep your phone, or a light close to hand at all times - the hidden zippered chest pocket on the 3D Jumbo 600 is the perfect place to keep it.

And, when it comes to packing your bag away, the double cap compression bag will help you get it done in a jiffy. For a good night's sleep on your trips away from the home, you can rely on the 3D Jumbo 600 Sleeping Bag from Black Wolf.
