Details

If your little one has a school, guides or scouts camping trip coming up - then you should invest in a quality sleeping bag, such as the Star 300 from Black Wolf.

The temperature rating of this bag is based on the Black Wolf adult sleeping bags, which are tested to the ISO23537:2016 standard. The draft flap will keep a cold breeze out, and the contoured hood will keep your child's head cosy on chilly evenings. The anti-bite zipper guard will help prevent snags when in use, and the night glow zip puller ensures your child can get in and out of this bag with ease.

Another nifty feature of this bag is the hidden chest pocket so your little one can keep headtorch safe for any middle of the night bathroom visits. When it comes to packing up - the compression bag makes it easy to keep everything nice and compact. With adult features in a child-sized package, the Star 300 is a solid sleeping bag for trips away.
