Details

Keep your feet cool and comfortable on the trail with a pair of the Moab 2 Vent Shoes from Merrell.

These shoes are made from performance suede and mesh which gives you the protection you need plus ventilation for when you're working up a sweat. The bellows closed-cell foam tongue will prevent water and trail debris from making its way into your shoes, while the rubber toe cap will prevent your feet getting knocked about by any rogue rocks you might encounter.

The inner has a breathable mesh lining, an EVA contoured footbed which provides arch and heel support, and a moulded nylon arch shank for stability. It also has an air cushion to help absorb shock and an EVA midsole for extra comfort. You'll also have plenty of grip on a variety of wet or dry surfaces with the slip-resistant Vibram sole with 5mm deep lugs. Keep your feet comfortable and ventilated on your next hike with the Moab Vent 2 Shoes from Merrell.

Suede leather and mesh upper
