

Supa Peg Galvanised Steel Ridge Rails

From \$54.90

Available sizes:

420 - 550 cm

Details

If your tarp and pole set up sags a little bit in the middle, then the Galvanised Ridge Rail from Supa Peg is just what the doctor ordered.

Adding this ridge rail will increase the head height of your tarp set up, while also preventing it sagging in the middle which can be a problem if the weather turns. This ridge rail is made from hi-tensile steel and is galvanised which will add moisture protection from exposure to the outside elements over time.

It also has square nylon inserts which means that you can use it with short spigots and it will protect you from sharp edges. Improve your tarp set up by keeping it taught with the Galvanised Ridge Rail from Supa Peg.

Made from hi-tensile steel
Square nylon inserts allow use with short spigots and protect from sharp edges
Nylon R inserts for safety
Yellow zinc fittings
Australian made
