

Sea to Summit Alpha Set 1.1

~~\$79.99~~ **\$67.90**

Details

If you're a lone adventurer in need of a lightweight cooking set, then the Alpha Set 1.1 from Sea to Summit is the strong and durable choice.

This set contains a 350ml Deltalite InsulMug and an 800ml Deltalight bowl which nest inside a 1.2L Alpha pot. The mug and bowl are made from microwave safe, BPA free polypropylene making them easy to clean and take care of. The pot is constructed from a premium high spec hard anodised premium alloy, making it strong, durable and light. The secure pivot-lock handle provides grip and can also be rotated inwards to lock the lid and contents for storage.

It's easy to drain your food as the pot has a strainer, and the bottom is sandblasted for stability on top of a stove. And the Lid Keep feature means you can hook the lid onto the rim which will free up your hands. A lightweight set for solo travels, the Alpha Set 1.1 from Sea to Summit is ready for the trail.
