

Sea to Summit Alpha Set 2.1

~~\$89.95~~ **\$74.90**

Details

If you've been on the hunt for a minimalist cook set for two, the Alpha 2.1 Cook set from Sea to Summit won't disappoint.

This set comes with one 1.9L Alpha pot which is made from high spec hard anodised alloy, for strength without the excess weight. The lid has a strainer for easy use, a sandblasted base for stability on top of a stove, a Pivot-Lock handle that provides a secure grip and can be rotated inward to lock the lid into place. The Lid Keep design also makes it easy to hook the lid to the rim of the pot, keeping it off the ground which also frees up your hands.

This set also comes with two 350ml Deltalite Insul Mugs, an 800ml Deltalight bowl and a 700ml Deltalight bowl which nest inside the Alpha pot. The bowls and mugs are made from BPA free polypropylene which is also microwave safe and easy to clean.

You can rely on the lightweight, durable and functional Alpha Set 2.1 from Sea to Summit to cook and eat with on your next expedition.
