

Sea to Summit Alpha Set 4.2

~~\$189.99~~ **\$159.90**

Details

A compact camp kitchen set for four, the Alpha 4.2 Set from Sea to Summit is the durable yet lightweight option that can be used at the campsite, or on the trail.

This set comes with two pots - one 3.7L Alpha Pot and one 2.7L Pot for cooking. These are made from high spec hard anodised premium alloy, making them light yet extremely durable. Each pot has a special pivot-lock handle which locks on securely when you're using it and can be rotated inward to lock the lid and the contents of the pot for transit. You can drain the water from your pasta through the strainer lid, the textured base provides better stability when stirring, and the Lid-Keep function means you can attach the lid to the rim to keep it out of the way.

This set comes with four DeltaLight Bowls and Insul Mugs that are made from microwave and dishwasher safe BPA free polypropylene. They also nest snugly inside the Alpha pots for easy storage while you're in transit. Whether it's a long weekend at your local National Park, or a more lightweight adventure - the Sea to Summit Alpha 4.2 is the versatile choice.
