

## Marmot Fortress 2P Hiking Tent

~~\$499.99~~ **\$449.90**

### Details

A solid stronghold against foul conditions, the Fortress 2P from Marmot is the tent that provides reliable shelter for two in stormy weather.

This tent has been designed to maximise interior space, which is why the pole clips have been placed to increase the volume, and the poles are pre-bent creating almost vertical walls for a roomier interior. In terms of set up, the Fortress has colour coded easy pitch clips, poles and fly to make pitching simple. This tent has a full fabric canopy that has a vent at the top for airflow, and two D-doors that are half mesh, so you can ventilate and keep out the weather. The fly provides full coverage, is seam taped, has a 1500mm waterhead rating. It also has additional guy outs for protection against the wind and rain. These will also help to reduce condensation inside while adding extra stability.

When you're tucked away inside this tent, add your headlamp to the lampshade pocket for ambient lighting inside your shelter, and stash your essentials in the interior pockets for safekeeping. When your trekking adventure takes you into wet and windy territory, you'll sleep soundly in the Fortress 2P from Marmot.

- Lampshade pocket to hold a headlamp
- Full fabric canopy with a top vent and two half mesh zippered D doors
- Zone pre-bend construction for more interior space
- Strategic clip placement for larger interior volume
- Seam taped full coverage fly with vents
- Seam taped catenary cut floor
- Colour coded easy pitch clips, poles and fly
- Interior pockets for small gear organisation
- Jingle-free nylon zipper pulls
