

Suunto 9 G1 Outdoor Watch

From \$599.99

Available colours:

Black | Lime | White

Details

Intuitive, robust and with a long battery life - the Suunto 9 is designed for multisport athletes on the move.

This watch has a durable stainless steel bezel, a mineral glass lens and a silicone strap for comfort. The Suunto has three battery modes - performance, endurance and ultra which delivers 25 to 120 hours of recorded time with GPS tracking on. You can record distance on a long run and track it accurately as it uses a FusedTrack algorithm which extends battery life without compromising on accuracy. The Suunto 9 is also water resistant to 100m and has a rechargeable lithium-ion battery.

Pair this watch with the new Suunto app and you can track your expeditions, as well as your sleep and daily activities. It also has a smart mobile connection which means you can get notifications, messages and incoming call alerts as well. Designed for long training sessions, you can rely on the Suunto 9 to perform at a high level on all your outdoor pursuits.

- Up to 120 hours of continuous exercise tracking
- Intelligent battery life management system
- Smart reminders
- Three predefined battery modes
- Use it with the Suunto app to monitor daily activities and sleep
- FusedTrack algorithm combined GPS and motion sensor data
- Estimated wrist HR
- Over 80 sport modes
- GPS navigation
- 100m water resistant
