

## Sea to Summit Latitude WLTl Women's Sleeping Bag

### Details

What if there was a sleeping bag that provided spacious and reliable warmth wrapped up in a compact package that could also be used on a balmy summer night? Well look no further, the Sea to Summit Women's Latitude Ltl is a tapered and effective bag that offers extra room around the chest and feet, and a full-length zip so you can open it right out in mild weather.

A differential cut construction combined with offset baffles and a tapered roomy foot section with a total weight of just over a kilo. No warmth trapping features have been left out, draft tube, neck baffle, three-dimensional hood and draw-cords, complete the Latitude as a fully featured bag. They've even included an internal zippered accessory pocket to keep your valuables close while you snooze.

The length of this bag is reduced for a closer fit, and the hip area is widened for added roominess for a women's specific fit. Sick of cold feet? The women's fit also comes with two combined down and Thermolite synthetic baffles under the foot area which will keep your heels and ankles warm in the area where feet can compress the down.

Once compressed the Latitude takes up 7.6L of volume in your pack and comes with a laundry bag/storage cell for when your escapade is over. If you're a gal after a lightweight bag that you can use all-year round on your outdoor adventures, then stop your search - the Sea to Summit Women's Latitude Ltl is the one.
