### Details

You're going to need more than just water, your keys and a phone when you're covering more technical ground, which is where the Advanced Skin 12 Set from Salomon comes in.

The breathable design of the Advanced Skin 12 has an updated Sensifit system that wraps around your body and moves with you to for better stability, and the stretchy mesh used will also reduce the risk of chafing for better overall comfort. The two included soft bite valve flasks sit in the pockets located at the front of your chest, which reduces sloshing and enables you to move your neck down to drink without removing them. You can also route a separate 1.5L bladder in this pack, so you can keep both a water and energy supply handy at all times.

The Kangaroo pocket on the back of the pack is easily accessible with a side zip, so you can retrieve and stash your gear quickly and easily, and the two front stretch pockets allow you to keep your phone or fuel close to hand.

With a pole holder, whistle, and two soft flasks included - this pack has the long-term comfort and features you'll need for off the grid training where you need to be prepared for anything.

- 2 x 500ml soft flasks that compress as you drink
- 1 main storage compartment
- Fast wicking and lightweight fabrics
- Pole holder and whistle included
- Sensifit self-adjusting fabric for better fit and stability
- 2 front stretch pockets, 1 back compartment with mesh pockets, 1 low back pocket with double-sided access
- Kangaroo pocket with side zip access
