Details

If you're a serious long-distance runner who's looking for a pack that's going to allow train light and unencumbered - then look no further than the Advanced Skin 5 Set from Salomon.

This pack is expertly constructed with high-quality fast wicking and lightweight fabric for maximum comfort and features a Sensifit system that conforms to your body to prevent movement when you're mid-run. The two included soft bite valve flasks sit in the pockets located at the front of your chest, which reduces sloshing and enables you to move your neck down to drink without removing them. You can also hang a separate 1.5L bladder in this pack as it has an insulated sleeve - so you can keep both a water and energy supply handy at all times.

This pack is highly accessible and features a back kangaroo pocket, a main zipped compartment, and plenty of smaller ones to keep all your essentials within reach. The form wrapping design, breathable and comfortable fabrics, and superb construction of the Advanced Skin 5 Set will take your training to an entirely new level.

Two 500ml soft flasks that compress as you drink
 Back kangaroo pocket, main zipped compartment, chest stretch pocket, internal pocket, mobile phone pocket, 2 front stretch pockets, and a zipped side pocket
 Fast wicking and lightweight fabrics
 Pole holder and whistle included
 Sensifit self-adjusting fabric for better fit and stability
 Front pockets for soft flasks to reduce bounce
 Insulated bladder sleeve and hanging system
