

Sea to Summit
First Aid Dry Sack 5L -
Expedition

\$17.90

Details

Ensure that your medical supplies are dry, visible, and accessible with the First Aid Dry Sack from Sea to Summit.

This sack is made from a lightweight red 70D waterproof nylon with a universally recognised white cross to make it stand out. The Hypalon roll top closure does not wick moisture, there's a D-ring for easy attachment, and it has a white interior and TPU window for visibility. It's also printed with the international symbol for first aid kits - ISO 7010 to make it easy to recognise. You can store other emergency gear such as fire starters, a GPS or radio in here as it can be used as a regular dry sack.

There are three sizes available - a 1L size for day use, a 3L size for overnight and a 5L for expeditions - so the First Aid Dry Sack from Sea to Summit will have your medical supplies covered on any adventure.

- First aid supplies not included
- Red with a universally recognised white cross
- Hypalon non-wicking, roll top closure
- Taped seams
- 10,000mm waterhead rating
- TPU window for visibility
- Printed with the international standard symbol for first aid kits - ISO 7010
- D-ring attachment point at the buckle
- Can be used as a regular dry sack
- Avoid submersion as water can seep through the roll top closure of any dry bag
