

OZtrail Gutter System

From \$27.90

Available sizes:

3 Metre | 2.4 Metre

Details

There's nothing worse than having water drip down through the gap in your gazebos onto your carefully laid out market stall, dinner table or outdoor setup. Don't let imperfect weather conditions spoil your day, instead use the OZtrail Gutter System to help drain water away from your sheltered area and join your three-meter size gazebo canopies together. This gutter system is made from long-lasting silver coated fabric which is the same as the OZtrail gazebos. To attach, you just put pre-stitched hooks through the eyelets on the gazebo frame, and then align it with the Velcro on the canopy. The perfect gazebo accessory to have at your disposal, the OZtrail Gutter system makes outdoor entertaining possible even in wet conditions. Attaches by hooks, eyelets and Velcro. Collects and drains away water from the sides of your gazebo. Compatible with 2.4 x 2.4m size OZtrail and Coleman gazebos. Perfect for outdoor events, market stalls, and backyard entertaining.
