

23Zero Stealth 1400 Low Profile RTT

~~\$1,599.95~~ **\$1,449.90**

Details

The design of the Stealth Low Profile rooftop tent from 23ZERO makes it the optimal touring tent for those who want less drag and weight, plus better fuel efficiency on the road. Constructed from 280 gsm polycotton tear check canvas, with fine PVC coated insect mesh, a round alloy telescopic ladder, and a 25mm heavy duty alloy sheath covered aluminium internal frame which pivots on a stainless-steel yoke - so this RTT is built with strength and weight in mind. This tent features a zip down sky roof for stargazing, full width side windows and side vents for air flow, and a 50mm open cell mattress with a polycotton cover to keep you comfortable. It also has an adjustable fly which helps prevent condensation, and it packs away into a 600gsm PVC transit cover with D ring compression straps. The Stealth Low Profile RTT is the efficient and streamlined choice for setting up on your vehicle on your touring expeditions. Low profile for less drag and better fuel efficiency Full zip down sky roof and full width side windows 280 gsm polycotton tear check canvas Fitted 50mm open cell mattress with polycotton mattress cover Fine PVC coated polyester insect mesh Adjustable 210D poly ripstop fly 2300mm round alloy telescopic ladder 25mm heavy duty alloy sheath covered aluminium internal frame 600gsm PVC transit cover with D ring compression straps Includes fitting kit, guy ropes, window stays and instructions Fits most roof racks
