Details

The Suunto 5 watch will keep you on your toes to help you stay on track of your fitness journey and daily activities.

The slim, stylish and comfortable design won't look out of place in your day-to-day life, while the long battery life keeps it going for up to 40 hours at a time. This watch will also remind you to charge it, so you don't need to stress about it running out of juice. You can follow your progress and track all of your workouts, and your 24/7 activity including steps and calories. This watch tracks your sleep quality and stress levels, to help you plan your training and get enough rest.

It will also provide support to maintain and boost your performance and fitness levels and has 80 customisable sport modes. Built to be functional as well as durable, the Suunto 5 is the compact sport watch with fantastic battery life to support your daily training.

Long battery life of up to 40 hours GPS watch 80 customisable sport modes Tracks your steps, calories, sleep, and stress levels Intelligent battery modes 24/7 activity tracking 50m water resistant
