Details

The next generation of Speedcross is here, it's time to unveil the Speedcross 5. Salomon has once again lifted the bar, gone back to basics and developed a shoe with improved grip, performance, fit and stability. I reckon that's checked a lot of boxes if you want to run flat-out and not feel like you're going to fall flat on your face. This runner features a Contagrip TA sole with jazzy chevron lugs which are durable and adhesive - so you'll be able to grip wet and muddy terrain without falling on your butt. It's also got an OrthoLite sock liner, a deeper EVA heel cup for added support and a moulded, high-rebound EVA midsole for lightweight stability and cushioning. It's almost like Salomon has customised this shoe to fit you perfectly. The mudguard around the base of the shoe keeps them from getting dirty when you're on the move, and the Quicklace system means you get the perfect fit, plus you won't have to stress about them coming undone and stacking it. With a pair of Salomon Speedcross 5, you can tackle soft or wet ground without having to worry about slowing down.

Ideal for: training and racing
Improved stability, grip and fit
Contagrip TA sole for loose rugged ground
Chevron Lug pattern designed for durability and adhesion
Sensifit with Quicklace
Lightweight protection - just enough for technical trail running
Precise foothold
Energy Cell midsole with lightweight cushioning and stability
Mudguard around the base
