

Vango Zenith 300 3P Hiking Tent

\$259.90

Details

With a stable easy pitch inner and fly, and a budget-friendly price tag - the Zenith 300 Tent from Vango is ideal for the lightweight trio ready for the trail.

This tent is designed to save you time in adverse weather as the fly and inner pitch together, while the single-pole hoop design delivers on stability. In windy conditions, the tension band system helps this tent perform and it has 5000mm rated fly with mesh vents for protection from the elements. The breathable polyester inner gives protection in cooler conditions, the part mesh inner door provides a ventilation point and the seams are factory taped for a watertight seal.

You can access this tent through the twin doors and create a sheltered porch with your hiking pole as there's an attachment eyelet in the door to lift it up. For better visibility with your headtorch at night, there are multiple reflective points, while the inner has handy storage pockets to keep your essentials accessible. The Zenith also comes with a fast pack bag that features an oversized opening for a quick pack up, even if it's wet.

Independently tested to the European standard EN5912 for rain and wind for reliability, the Zenith 300 from Vango offers dependable shelter on lightweight expeditions.
