Details

Sleek, stylish and functional - the Outline Mid GTX from Salomon provides the best of a sneaker and a hiking shoe so that you're ready for the street or the trail.

The upper is made from synthetic material and mesh for lightweight protection, with flat laces for a consistent fit and a stitch-free upper to hug your feet like a glove. To prevent debris kicking up inside your shoes there's a gusseted tongue, while the guard around the base of the shoe adds extra protection. Inside these shoes is a soft breathable mesh and textile lining, and an Ortholite sockliner for cushioning and to keep your feet secure. A rainy day won't stop your adventures, as these shoes have a Gore-tex membrane to keep your feet dry from the elements while allowing them to breathe.

To absorb shock from impact, these shoes have a high-performance EVA foam midsole, while the durable Contragrip outsole grips on both hard and soft surfaces for versatility. Featuring the comfort and good looks of a sneaker, and the outdoor suitability of a hiking shoe - you can't go wrong with the Outline Mid GTX from Salomon.
