Details

Protect and support your feet without weighing them down on the trail with the sneaker-boot hybrid Women's Explore Waterproof Boots from Keen. This mid-design gives you extra support and features a lightweight performance mesh upper with TPU overlays to add durability. To keep your feet dry from the elements, these boots have a KEEN.Dry waterproof breathable membrane as well as a Konnectfit heel capture system which locks your feet in for security. The lining is made from mesh for breathability, with an EVA midsole for cushioning as well as a removable PU footbed with arch support for comfort. These boots are finished off with KEEN all-terrain rubber outsole with 4mm multi-directional lugs for excellent traction, so they'll have you action-ready whenever you're in the mood for fresh air. Mid-cut for more ankle support Upper made from performance mesh with TPU overlays Removable PU footbed with arch support EVA midsole for cushioning Interior mesh lining KEEN.Dry waterproof membrane keeps feet dry Konnectfit heel capture system locks feet in for security Outsole with 4mm multi-directional lugs for traction
