### Details

Safely explore with confidence knowing you have the right tools to help you if your vehicle gets bogged, by adding the high-performance Tred GT Boards from TRED to your 4WD recovery kit. These boards are constructed from high-quality automotive-grade polypropylene, for strength, impact resistance and durability. They're formulated to perform on all-terrain so sand, mud or light snow in ambient temperatures from 0° to 55° degrees. The Tred GT boards can handle vehicles up to 4 tonnes, are ultra-lightweight for transport, a lower profile for better nesting, with multiple mounting locations so that you can store them best on your vehicle for easy access. Australian made and owned, the TRED GT provides and performance and reliability in off-road recovery situations for your peace of mind when travelling off the beaten path. Pair of recovery boards included High-quality automotive-grade polypropylene Performs year-round in ambient temperatures from 0°-55° degrees Greater strength - vehicles up to 4 tonne Ultralightweight for transport Performs on sand, mud or light snow Improved flex for maximum performance More contact and variable tooth design Lower profile for better storage
