### Details

Aussies are an active bunch and whether you're off bushwalking, climbing, boating, paddling or simply gardening in the backyard, slapping on the Breeze Hat from Marmot will keep the sun's rays from frying your noggin.

Rated at UPF 50 this hat has a moisture-wicking sweatband and generous side mesh panels for increased ventilation, so even on hot days, you'll stay comfortable. Windy days won't be a problem either, with the adjustable circumference and removable chin strap keeping it securely in place. No worries if you drop it overboard as the 3-inch floating brim will prevent your hat from sinking to the ocean floor.

Stay cool as a cucumber and dry as a cracker with the Breeze Hat from Marmot.
