From \$854.90

Available colours:

Black Solar

Details

All year-round, the warm, water-resistant, and breathable Paiju -5° Sleeping Bag from Marmot will keep you snug on cold technical adventures. With a comfort temperature rating of -12°, this EN tested bag also has a water-resistant yet breathable which also offers protection from the wind and improves the insulation. The 800-fill power down has a Down Defender treatment to give it an extra layer of moisture protection to retain the loft. To prevent movement, the bag has smooth, curved baffles to prevent the down shifting around and there's a cinchable draft collar to keep you extra warm. This bag is stitched with waterproof thread to prevent any moisture seeping in through the seams, has a full-length locking YKK two-way zipper with zip guard slider for access. Keep smaller essentials or batteries in the internal stash pocket and when it's time to head home pack it into the included seam-taped roll-top stuff sack for transport. Even in 4 season conditions, you'll be warm and insulated from the cold in the high-performance Paiju Sleeping Bag -5° from Marmot. Water-resistant & breathable Pertex Quantum shell The 800-fill power down insulation Down Defender treatment for moisture protection Smooth curved baffles movement of down EN tested with -12° comfort temperature rating Cinchable draft collar for extra warmth Full length locking YKK two-way zipper with zip guard slider Internal stash pocket for storing smaller items Waterproof thread prevents moisture seeping in seams Seam taped roll-top stuff sack for easy access & transport
