Details

Most beach sunshades are aimed at your typical size family. Well, the good folks at Coleman realise that not all families are the same. Some are big. So, they created the Coleman Event 14.

Boasting a CPAI-84 fire retardant and UPF50+ canopy, this shade will keep your family protected from the harsh summer sun. Easy to set up with 8 shock-corded poles, this it has a whopping 2.3m internal height which'll accommodate even the tallest of cousins. And it packs down relatively small, so you don't need a truck to cart it to that Sunday picnic, the beach, or your next cricket match.

A 'sunwall' is included allowing for wind protection and privacy, making the Event 14 a great summer beach shade for the extended family.
