

Black Wolf Wasp II Hiking Tent

~~\$369.95~~ **\$189.90**

Details

Like a wasp nest protecting its colony, the robust pole structure of the Black Wolf Wasp II makes it stand strong in just about any weather but snow... you don't find many wasps around when the weather gets that cold anyway!

Three intersecting aircraft grade alloy poles create a sturdy, freestanding frame and roomy interior with two generously sized vestibules and entrances on each side. Head space is also aplenty with far more room for your noggin than regular dome tents.

Double layered doors with both mesh and nylon panels team up with vents at each end for climate control, and everything on the inside has a place with storage pockets in each corner and a removable gear loft. All of these features come together to make the Black Wolf Wasp II an outstanding 3 - 4 season hiking tent.

Sturdy 3 pole intersecting frame
Double panelled (mesh & nylon) doors
Vents at each end
Four storage pockets and Gear Loft
Includes stuff sack

Specifications
