

Cobb
Premier Portable Grill

\$189.90

Details

The Cobb Premier Cooking System is a unique and portable cooking system that you can use to bake, smoke, fry boil and BBQ at just about any outdoor event or location.

Made from stainless steel, the Cobb Cooker has a rugged build with a refined appearance that would fit in just as easily on a gourmet outdoor breakfast buffet as it would in a campsite. You've got three choices in fuel for the Cobb, the purpose made Cobblestones, about 300 grams of charcoal, or 8-10 briquettes, and while the inside of the Cobb can reach temperatures up to 260°C, the stainless steel mesh base stays completely cool on the outside. On the inside a moat allows you to add water or beer to the oven to keep your roast moist, and the design keeps oils and fats from dripping onto the burning fuel for healthy smoke-free cooking.

The Cobb's design circulates heat evenly around your food and the high dome lid provides enough space for an entire roast chicken whilst the plethora of optional extra's enable you to fry and bake anything from vegetables, steak, sausages, fish and even pizza, the Cobb Premier Cooking System really is a portable kitchen in a bag.

Includes carry bag
Fry, roast, smoke, bake and even boil
Mesh base stays cool
Smoke-free cooking
Large dome lid allows for large food items such as roasts
