

Thermal Ice Midi Ice Pack

\$5.90

Details

Grab a Thermal Ice Midi Gel Ice Pack when you need to keep something chilled or warm when you're out and about. Made from a non-toxic and reusable gel, a big advantage of using thermal ice is that it lasts three times longer than actual ice, so it's more efficient and practical. This ice pack is also really hygienic, as it doesn't absorb sweat, blood, odour, liquids, and it doesn't produce bacteria. You can also use it for so many things whether it's for various first aid purposes or for keeping food and drink cold in your esky or icebox. Just put the Midi Ice Pack from Thermal Ice in the freezer or heat it up in the microwave and you're good to go.

1 Sheet per 10-15 Litres
Lasts three times longer than ice
