

## Deuter Futura 28 Day Pack

### Details

For an athletic looking day pack that can be used for day hikes, or travelling then the Futura 28 is the perfect place to house your gear.

The Futura features the Aircomfort system that separates the pack from your body with a mesh panel which allows for plenty of airflow you're on the trail. The bottom compartment is separate so you can organise your gear without having to pull out everything just to get the gear at the bottom. The spring steel frame is both flexible and lightweight, and will transfer the weight of your load to your hips for comfort on the go.

To position the pack perfectly on your torso, you can move the load lifter straps up or down for the ideal fit. With an added rain cover, you can protect your gear from a surprise downpour, and with a wet laundry compartment, you can keep your sodden clothes away from the rest of your dry gear.
